Loricrin Recombinant Protein Antigen

| Unit Size  | Loricrin Recombinant Protein Antigen |   |  |
|--|--------------------------------------|---|--|
| Concentration Please see the vial label for concentration. If unlisted please contact technical services. Storage Store at -20C. Avoid freeze-thaw cycles. Preservative No Preservative Purity >80% by SDS-PAGE and Coomassie blue staining Buffer PBS and 1M Urea, pH 7.4. Target Molecular Weight Product Description  Bescription  A recombinant protein antigen with a N-terminal His6-ABP tag corresponding to human LOR.  Source: E. coli  Amino Acid Sequence: MSYQKKQPTPQPPVDCVKTSGGG Fusion Tag: N-terminal His6ABP (ABP = Albumin Binding Protein derived from Streptococcal Protein G)  This product is intended to be used as a blocking antigen for antibody competition assays. Any other use of this antigen is done at the risk of the user. The use of this product for commercial production is strictly prohibited. Please contact technical support if you have any questions.  Gene ID  4014 Gene Symbol LORICRIN Species Human  Product Application Details  Application Notes  Antibody Competition 10-100 molar excess  Application Notes  This recombinant antigen is only intended to be used as a blocking agent to confirm antibody specificity with the corresponding antibody, catalog number NBP2-62716.  It is purified by IMAC chromatography, and the expected concentration is greater than 0.5 mg/ml. For current lot information, including availability, please contact our technical support team click nb-technical@bio-technic.com. | Product Information                  |   |  |
| Storage Stora at -20°C. Avoid freeze-thaw cycles.  Preservative No Preservative Purity > 80% by SDS-PAGE and Coomassie blue staining Buffer PBS and 1M Urea, pH 7.4.  Target Molecular Weight 20 kDa  Product Description  Description A recombinant protein antigen with a N-terminal His6-ABP tag corresponding to human LOR.  Source: E. coli Amino Acid Sequence: MSYQKKQPTPQPPVDCVKTSGGG Fusion Tag: N-terminal His6ABP (ABP = Albumin Binding Protein derived from Streptococcal Protein G)  This product is intended to be used as a blocking antigen for antibody competition assays. Any other use of this antigen is done at the risk of the user. The use of this product for commercial production is strictly prohibited. Please contact technical support if you have any questions.  Gene ID 4014  Gene Symbol LORICRIN Species Human  Product Application Details  Applications Antibody Competition 10-100 molar excess  Application Notes This recombinant antigen is only intended to be used as a blocking agent to confirm antibody specificity with the corresponding antibody, catalog number NBP2-62716.  It is purified by IMAC chromatography, and the expected concentration is greater than 0.5 mg/ml.  For current lot information, including availability, please contact our technical support team click nb-technical@bio-techne.com   | Unit Size                            | 100 ul  |  |
