| Reactivity Notes            | Human reactivity reported in scientific literature (PMID: 26067754).                                                                                                                                                                                                                                                                                                                                      |
| Specificity/Sensitivity     | It reacts with Bromodeoxyuridine (BrdU) in single stranded DNA (produced by partial denaturation of double stranded DNA), BrdU coupled to a protein carrier, as well as free BrdU. BrdU is a thymidine analog, incorporated into cell nuclei during DNA synthesis prior to mitosis. Antibody to BrdU is helpful in detecting S-phase cells, providing useful information on the aggressiveness of tumors. |
| Immunogen                   | Bromodeoxyuridine/BrdU conjugated to hemocyanine (isolated from Helix pomatia)                                                                                                                                                                                                                                                                                                                            |

| Product Application Details |                                                                                                                                                                                                                                                                                                                                                                                                           |
| Applications                | Flow Cytometry, Immunocytochemistry/Immunofluorescence, Immunohistochemistry, Immunohistochemistry-Paraffin, CyTOF-ready                                                                                                                                                                                                                                                                                  |
| Recommended Dilutions       | Flow Cytometry, Immunohistochemistry, Immunocytochemistry/Immunofluorescence, Immunohistochemistry-Paraffin, CyTOF-ready                                                                                                                                                                                                                                                                                  |
| Application Notes           | Optimal dilution of this antibody should be experimentally determined.                                                                                                                                                                                                                                                                                                                                    |
