ErbB2/Her2 Antibody (OTI4F10) [Alexa Fluor® 700]

under catalog numbers PK-2200-NB and MP-2400-NB. Please contact Technic Support if you have any questions. Recombinant protein fragment corresponding to amino acids 676-1255 of huma ErbB2/Her2 (NP_004439) produced in HEK293T cells. Notes Alexa Fluor (R) products are provided under an intellectual property license fror Life Technologies Corporation. The purchase of this product conveys to the buyer the non-transferable right to use the purchased product and components of the product only in research conducted by the buyer (whether the buyer is an academic or for-profit entity). The sale of this product is expressly conditioned of the buyer not using the product or its components, or any materials made using the product or its components, in any activity to generate revenue, which may include, but is not limited to use of the product or its components: (i) in manufacturing; (ii) to provide a service, information, or data in return for payment; (iii) for therapeutic, diagnostic or prophylactic purposes; or (iv) for resale, regardless of whether they are resold for use in research. For information on purchasing a license to this product for purposes other than as described above, contact Life Technologies Corporation, 5791 Van Allen Way, Carlsbad, CA 92008 USA or outlicensing@lifetech.com. This conjugate is made on demand. Actual recovery may vary from the stated volume of this product. The volume will be greater than or equal to the unit size stated on the datasheet. Product Application Details Applications Flow Cytometry, Immunocytochemistry/ Immunofluorescence,	LIBBZ/TICIZ ANUBOUY (OTHER TO) [AICAUT INDICATE		
Please see the vial label for concentration. If unlisted please contact technical services.	Product Information		
Storage Store at 4C in the dark. Clonality Monoclonal Clone OT4F10 Preservative 0.05% Sodium Azide Isotype 1gG2a Conjugate Alexa Fluor 700 Purity Immunogen affinity purified Buffer 50mM Sodium Borate Product Description Host Mouse Gene ID 2064 Gene Symbol ERBB2 Species Human, Mouse, Rat Reactivity Notes Please note that this antibody is reactive to Mouse and derived from the same host, Mouse. Mouse-On-Mouse blocking reagent may be needed for IHC and ICC experiments to reduce high background signal. You can fithese reagent under catalog numbers PK-2200-NB and MP-2400-NB. Please contact Technic Support if you have any questions. Immunogen Recombinant protein fragment corresponding to amino acids 676-1255 of huma ErbS2/Her? (NP_004439) produced in HEK293T Cells. Notes Alexa Fluor (R) products are provided under an intellectual property license from Life Technologies Corporation. The purchased product conveys to the buyer the non-transferable right to use the purchased product acomponents of the product only in research conducted by the buyer (whether the buyer is an academic or for-profit entity). The sale of this product is expressly conditioned or the product or its components, or any materials made using the product or its components, or any materials made using the product or its components, or any materials made using the product or its components, or any materials made using the product or its components, or any materials made using the product or its components, or in manufacturing; (ii) to provide a service, information, or data in return for payment; (iii) for therapseutic, diagnostic or prophylactic purposes other than sedescribed above, contact Life Technologies Corporation, 5791 Van Allen Way, Carlbad, CA 92008 USA or outlicensing difference, man This conjugate is made on demand. Actual recovery may vary from the stated volume of this product. The volume will be greater than or equal to the unit size stated on the datasheet.	Unit Size	0.1 ml	
Clone OTI4F10 Preservative 0.05% Sodium Azide Isotype IgG2a Conjugate Alexa Fluor 700 Purity Immunogen affinity purified Buffer 50mM Sodium Borate Product Description Host Mouse Gene ID 2064 Gene Symbol ERBB2 Species Human, Mouse, Rat Reactivity Notes Please note that this antibody is reactive to Mouse and derived from the same host, Mouse-On-Mouse blocking reagent may be needed for IHC and ICC experiments for reduce high background signal. You can find these reagent under catalog numbers PK-2200-NB and MP-2400-NB. Please contact Technic Support if you have any questions. Immunogen Recombinant protein fragment corresponding to amino acids 676-1255 of huma ErbB2/Her2 (NP_004439) produced in HEK293T cells. Notes Alexa Fluor (R) products are provided under an intellectual property license fror Life Technologies Corporation. The purchase of this product conveys to the buyer the non-transferable right to use the purchased product and components of the product or its components, or any materials made using the product or its components, or any materials made using the product or its components, in any activity to generate revenue, which may include, but is not limited to use of the product or its components; (ii) in manufacturing; (iii) for therapeutic, diagnostic or prophylactic purposes; or (iv) for resale, regardless of whether they are resold for use in research. For information on purchasing a license to this product to ris components: (ii) in manufacturing; (iii) for therapeutic, diagnostic or prophylactic purposes; or (iv) for resale, regardless of whether they are resold for use in research. For information on purchasing a license to this product or the state of the product. The volume will be greater than or equal to the unit size stated on the datasheet.
