NBP2-73621PECY7

Proprotein Convertase 7/PCSK7 Antibody (OTI1B8) [PE/Cy7]

| Product Information | |
|---------------------|---------------------------------------------------------------------------------------------|
| Unit Size | 0.1 ml |
| Concentration | Please see the vial label for concentration. If unlisted please contact technical services. |
| Storage | Store at 4C in the dark. Do not freeze. |
| Clonality | Monoclonal |
| Clone | OTI1B8 |
| Preservative | 0.05% Sodium Azide |
| Isotype | IgG2a |
| Conjugate | PE/Cy7 |
| Purity | Immunogen affinity purified |
| Buffer | PBS |

| Product Description | |
|---------------------|---------------------------------------------------------------------------------------------------------------|
| Host | Mouse |
| Gene ID | 9159 |
| Gene Symbol | PCSK7 |
| Species | Human, Mouse, Rat |
| Immunogen | Full length recombinant protein of human Proprotein Convertase 7/PCSK7 (NP_004707) produced in HEK293T cells. |

| Product Application Details | |
|-----------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Applications | Flow Cytometry, Immunocytochemistry/ Immunofluorescence |
| Recommended Dilutions | Flow Cytometry, Immunocytochemistry/ Immunofluorescence |
| Application Notes | Optimal dilution of this antibody should be experimentally determined. For optimal results using our Tandem dyes, please avoid prolonged exposure to light or extreme temperature fluctuations. These can lead to irreversible degradation or decoupling. When staining intracellular targets, specific attention to the fixation and permeabilization steps in your flow protocol may be required. Please contact our technical support team at technical@novusbio.com if you have any questions. |
