Product Information

VEGF-B Antibody (OTI1H9) [Alexa Fluor® 700]

Concentration Please see the vial label for concentration. If unlisted please contact technical services. Storage Store at 4C in the dark. Clonality Monoclonal Clone OTI1H9 Preservative 0.05% Sodium Azide Isotype IgG1 Conjugate Alexa Fluor 700 Purity Immunogen affinity purified Buffer 50mM Sodium Borate Product Description Host Mouse Gene ID 7423 Gene Bymbol VEGFB Species Human, Mouse, Rat Please note that this antibody is reactive to Mouse and derived from the same host, Mouse, Mouse-On-Mouse blocking reagent may be needed for IHC and ICC experiments to reduce high background signal. You can find these reagents under catalog numbers PK-2200-NB and MP-2400-NB. Please contact Technical Support if you have any questions. Immunogen Full length recombinant protein of human VEGF-B (NP_003368) produced in HEK293T cells. Notes Alexa Fluor (R) products are provided under an intellectual property license from Life Technologies Corporation. The purchase of this product conveys to the buyer the non-transferable right to use the purchased product and components of the product only in research conducted by the buyer (Mether the buyer is an academic or for-profit entity). The sale of this product is expressly conditioned on the buyer not using the product or its components, or any materials made using the product or its components, or any materials made using the product or its components, or any materials made using the product or its components, or any materials made using the product or its components, or pay materials made using the product or its components, or long on the buyer not using the product or its components; (i) in manufacturing; (ii) to provide a service, information, or data in return for payment; (iii) for therapeutic, diagnostic or prophylactic purposes; or (iv) for resale, regardless of whether they are resold for use in researche, or information on purchasing a license to this product for purposes other than as described above, contact Life Technologies Corporation, 5791 V	· · · · · · · · · · · · · · · · · · ·
