| Storage Store at 4C in the dark.  Clonality Monoclonal  Clone 4D4  Preservative 0.05% Sodium Azide  Isotype IgG Kappa  Conjugate Alexa Fluor 405  Purity Protein A purified  Buffer 50mM Sodium Borate  Product Description  Host Armenian Hamster  Gene ID 201633  Gene Symbol TiGIT  Species Mouse  Specificity/Sensitivity 4D4 specifically recognises TIGIT.  Immunogen Armenian hamsters were immunized with recombinant mouse TIGIT tetramers by a combination of s.c. and food pad immunization and booster injections. Draining lymph nodes were fused with \$920-Q414 cells, selected in HAT (hypoxanthine/aminopterin/thymidine) medium and supernatants were screened for specificity by ELISA and flow cytometry using TIGIT-transfectants.  Notes  Alexa Fluor (R) products are provided under an intellectual property license from Life Technologies Corporation. The purchase of this product conveys to the buyer the non-transferable right to use the purchased product and components of the product only in research conducted by the buyer (whether the buyer is an academic or for-profit entity). The sale of this product is expressly conditioned or the buyer not using the product or its components, or any materials made using the product or its components, or any materials made using the product or its components, or popymatic juil or the respective, diagnostic or prophylactic purposes; or (iv) for resale, regardless of whether they are resold for use in research. For information on purchasing a license to this product for purposes other than as described above, contact Life Technologies Corporation, 5791 Van Allen Way, Carlsbad, CA 92008 USA or outificensing @lifetech.com. This conjugate is made on demand. Actual recovery may vary from the stated volume of this product. The volume will be greater than or equal to the unit size stated on the datasheet.   | Unit Size               | 0.1 ml   |
