| Conjugate                   | HRP                                                                                                                                                                                                               |
| Purity                      | Peptide affinity purified                                                                                                                                                                                         |
| Buffer                      | PBS                                                                                                                                                                                                               |
| Product Description         |                                                                                                                                                                                                                   |
| Host                        | Rabbit                                                                                                                                                                                                            |
| Gene ID                     | 51592                                                                                                                                                                                                             |
| Gene Symbol                 | TRIM33                                                                                                                                                                                                            |
| Species                     | Human, Mouse, Rat                                                                                                                                                                                                 |
| Reactivity Notes            | 0                                                                                                                                                                                                                 |
| Specificity/Sensitivity     | TIF1 gamma antibody is human, mouse and rat reactive. At least two isoforms of TIF1 gamma are known to exist.                                                                                                     |
| Immunogen                   | TIF1 gamma antibody was raised against an 18 amino acid peptide near the center of human TIF1 gamma. The immunogen is located within amino acids 580 - 630 of TIF1 gamma. Amino Acid Sequence: AQNAARIPGIPRHSGPQY |
| Product Application Details |                                                                                                                                                                                                                   |
| Applications                | Western Blot, ELISA, Immunocytochemistry/Immunofluorescence, Immunohistochemistry, Immunohistochemistry-Paraffin                                                                                                  |
| Recommended Dilutions       | Western Blot, ELISA, Immunohistochemistry, Immunocytochemistry/Immunofluorescence, Immunohistochemistry-Paraffin                                                                                                  |
| Application Notes           | Optimal dilution of this antibody should be experimentally determined.                                                                                                                                            |
