**NBP2-81905**

CENPW Antibody - BSA Free

**Product Information**

|                      |                                                                                        |
|----------------------|----------------------------------------------------------------------------------------|
| <b>Unit Size</b>     | 0.1 mg                                                                                 |
| <b>Concentration</b> | 1 mg/ml                                                                                |
| <b>Storage</b>       | Store at 4C short term. Aliquot and store at -20C long term. Avoid freeze-thaw cycles. |
| <b>Clonality</b>     | Polyclonal                                                                             |
| <b>Preservative</b>  | 0.02% Sodium Azide                                                                     |
| <b>Isotype</b>       | IgG                                                                                    |
| <b>Purity</b>        | Peptide affinity purified                                                              |
| <b>Buffer</b>        | PBS                                                                                    |

**Product Description**

|                                |                                                                                                                                                                                                                      |
|--------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Description</b>             | Novus Biologicals Rabbit CENPW Antibody - BSA Free (NBP2-81905) is a polyclonal antibody validated for use in WB and ELISA. All Novus Biologicals antibodies are covered by our 100% guarantee.                      |
| <b>Host</b>                    | Rabbit                                                                                                                                                                                                               |
| <b>Gene ID</b>                 | 387103                                                                                                                                                                                                               |
| <b>Gene Symbol</b>             | CENPW                                                                                                                                                                                                                |
| <b>Species</b>                 | Human, Mouse, Rat                                                                                                                                                                                                    |
| <b>Specificity/Sensitivity</b> | At least three isoforms of CENPW are known to exist; this antibody will detect all three isoforms.                                                                                                                   |
| <b>Immunogen</b>               | CENPW antibody was raised against a 16 amino acid synthetic peptide near the amino terminus of human CENPW. The immunogen is located within the first 50 amino acids of CENPW. Amino Acid Sequence: SQRKQIKRKAPRGFLK |

**Product Application Details**

|                              |                                 |
|------------------------------|---------------------------------|
| <b>Applications</b>          | Western Blot, ELISA             |
| <b>Recommended Dilutions</b> | Western Blot 0.5-1 ug/ml, ELISA |

**Images**

Western Blot: CENPW Antibody [NBP2-81905] - Western blot analysis of CENPW in HeLa cell lysate lysate with CENPW antibody at (A) 0.5 and (B) 1 ug/mL.
