| <b>Host</b>        | Rabbit                                                                                                                                                                                                                                                |
| <b>Gene ID</b>     | 11281                                                                                                                                                                                                                                                 |
| <b>Gene Symbol</b> | POU6F2                                                                                                                                                                                                                                                |
| <b>Species</b>     | Human                                                                                                                                                                                                                                                 |
| <b>Immunogen</b>   | The immunogen is a synthetic peptide directed towards the N terminal region of human POU6F2. Peptide sequence: AATSDSELNEPLLAPVESNDSEDTPSKLFGARGNPALSDPGTPDQHQASQ The peptide sequence for this immunogen was taken from within the described region. |

**Product Application Details**

|                              |                        |
|------------------------------|------------------------|
| <b>Applications</b>          | Western Blot           |
| <b>Recommended Dilutions</b> | Western Blot 1.0 ug/ml |

**Images**

Western Blot: POU6F2 Antibody [NBP2-82314] - WB Suggested Anti-POU6F2 Antibody Titration: 0.2-1 ug/ml. ELISA Titer: 1:312500. Positive Control: HepG2 cell lysate
