| Species                     | Human                                                                                                                                                                                                                                   |
| Immunogen                   | The immunogen is a synthetic peptide directed towards the middle region of DAP1. Peptide sequence: PSPPKPTVFISGVIARGDKDFPPAAQVAHQKPHASMDKHPSPTQHIQQ The peptide sequence for this immunogen was taken from within the described region. |
| Product Application Details |                                                                                                                                                                                                                                         |
| Applications                | Western Blot, Immunohistochemistry-Paraffin, Immunohistochemistry                                                                                                                                                                       |
| Recommended Dilutions       | Western Blot 1.0 ug/ml, Immunohistochemistry, Immunohistochemistry-Paraffin                                                                                                                                                             |

## Images

Western Blot: DAP1 Antibody [NBP2-87245] - WB Suggested Anti-DAP Antibody. Titration: 1.0 ug/ml. Positive Control: HCT15 Whole Cell

Immunohistochemistry-Paraffin: DAP1 Antibody [NBP2-87245] - Rabbit Anti-DAP Antibody. Formalin Fixed Paraffin Embedded Tissue: Human Heart Tissue. Observed Staining: Cytoplasm in cardiomyocytes and endothelial cells in capillaries. Primary Antibody Concentration: 1:100.
