| Product Description         |                                                                                                                                                                                                                                                 |
| Description                 | Novus Biologicals Rabbit DGKH Antibody - BSA Free (NBP2-87267) is a polyclonal antibody validated for use in IHC and WB. All Novus Biologicals antibodies are covered by our 100% guarantee.                                                    |
| Host                        | Rabbit                                                                                                                                                                                                                                          |
| Gene ID                     | 160851                                                                                                                                                                                                                                          |
| Gene Symbol                 | DGKH                                                                                                                                                                                                                                            |
| Species                     | Human, Mouse                                                                                                                                                                                                                                    |
| Immunogen                   | The immunogen is a synthetic peptide directed towards the middle region of human DGKH. Peptide sequence: DLDSVDGYSEKCVMNYYFGIGLDAKISLEFNNKREEHPEKCRSRTKNLMW The peptide sequence for this immunogen was taken from within the described region. |
| Product Application Details |                                                                                                                                                                                                                                                 |
| Applications                | Western Blot, Immunohistochemistry-Paraffin, Immunohistochemistry                                                                                                                                                                               |
| Recommended Dilutions       | Western Blot 1.0 ug/ml, Immunohistochemistry, Immunohistochemistry-Paraffin                                                                                                                                                                     |

## Images

Western Blot: DGKH Antibody [NBP2-87267] - WB Suggested Anti-DGKH Antibody Titration: 0.2-1 ug/ml. ELISA Titer: 1:1562500. Positive Control: Human heart

Immunohistochemistry: DGKH Antibody [NBP2-87267] - Sample Type: Adult mouse cortex. Primary Antibody Dilution: 1:500. Secondary Antibody: Anti-rabbit-Cy3. Secondary Antibody Dilution: 1:1000. Color/Signal Descriptions: Red: DGKH Cyan: Nissl (Neurons). Gene Name: DGKH. Submitted by: Joshua R. Sanes, Molecu

### DGKH

Red: DGKH Cyan: Nissl (Neurons)

See IHC 1 Data and Customer Feedback for more Information

Western Blot: DGKH Antibody [NBP2-87267] - Host: Rabbit. Target: DGKH. Positive control (+): Human Brain (BR). Negative control (-): Human Fetal Heart (HE). Antibody concentration: 1ug/ml

Host: Rabbit  
Target Name: DGKH  
Positive Control: ~25ug Human Fetal Heart (HE)  
Negative Control: ~25ug Human Brain (BR)  
Antibody Concentration: 1ug/ml
