### NBP2-90980H

SARS-CoV-2 Spike Antibody (CR3022) [HRP]

| SARS-CoV-2 Spike Antibody (CR3022) [HRP] |  |
|--|--|
| Product Information                      |  |
| Unit Size                                | 0.1 ml   |
| Concentration                            | Please see the vial label for concentration. If unlisted please contact technical services.  |
| Storage                                  | Store at 4C in the dark.   |
| Clonality                                | Monoclonal   |
| Clone                                    | CR3022   |
| Preservative                             | No Preservative  |
| Isotype                                  | IgG1 Kappa   |
| Conjugate                                | HRP  |
| Purity                                   | Protein A purified   |
| Buffer                                   | PBS  |
| Product Description                      |  |
| Host                                     | Human  |
| Gene ID                                  | 43740568   |
| Gene Symbol                              | S  |
| Species                                  | SARS-CoV-2, SARS-CoV   |
| Reactivity Notes                         | SARS-CoV, SARS-CoV-2   |
| Specificity/Sensitivity                  | This antibody binds to both SARS-CoV and SARS-CoV-2 with high affinity (PMID: 16796401 & 32065055). It binds the amino acids 318-510 in the S1 domain of the SARS-CoV Spike protein as well as SARS-CoV-2 (COVID-19) Spike protein. The antibody also binds to P462L-substituted S318-510 fragments of the SARS spike protein. The binding epitope is only accessible in the "open" confromation of the spike protein (Joyce et al. 2020). |
| Immunogen                                | The original monoclonal antibody was generated through an scFv library derived from a peripheral blood lymphocytes of a patient exposed to the SARS-CoV.   |
| Product Application Details              |  |
| Applications                             | ELISA, Immunocytochemistry/Immunofluorescence, Neutralization, Surface Plasmon Resonance   |
| Recommended Dilutions                    | ELISA, Immunocytochemistry/Immunofluorescence, Surface Plasmon Resonance, Neutralization   |
| Application Notes                        | Optimal dilution of this antibody should be experimentally determined.   |
|  |  |
