| <b>Buffer</b>        | PBS                                                                                         |

**Product Description**

|                    |                                                                                                                                                                                                                                |
|--------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Description</b> | This antibody can be stored at 2C to 8C for one month without detectable loss of activity. Antibody products are stable for twelve months from date of receipt when stored at -20C to -80C. Avoid repeated freeze-thaw cycles. |
| <b>Host</b>        | Rabbit                                                                                                                                                                                                                         |
| <b>Gene ID</b>     | 8630                                                                                                                                                                                                                           |
| <b>Gene Symbol</b> | HSD17B6                                                                                                                                                                                                                        |
| <b>Species</b>     | Human                                                                                                                                                                                                                          |
| <b>Immunogen</b>   | Produced in rabbits immunized with E. coli-derived Human HSD17B6 fragment.                                                                                                                                                     |

**Product Application Details**

|                              |                                                                                               |
|------------------------------|-----------------------------------------------------------------------------------------------|
| <b>Applications</b>          | Immunocytochemistry/ Immunofluorescence, Immunohistochemistry-Paraffin                        |
| <b>Recommended Dilutions</b> | Immunocytochemistry/ Immunofluorescence 1:50-1:200, Immunohistochemistry-Paraffin 1:100-1:400 |

## Images

Immunocytochemistry/Immunofluorescence: HSD17B6 Antibody [NBP2-97586] - Immunofluorescence staining of HSD17B6 in U2OS cells. Cells were fixed with 4% PFA, permeabilized with 0.1% Triton X-100 in PBS, blocked with 10% serum, and incubated with rabbit anti-Human HSD17B6 polyclonal antibody (dilution ratio 1:100) at 4C overnight. Then cells were stained with the Alexa Fluor(R)594-conjugated Goat Anti-rabbit IgG secondary antibody (red). Positive staining was localized to Nucleus.

Immunohistochemistry-Paraffin: HSD17B6 Antibody [NBP2-97586] - Immunochemical staining of human HSD17B6 in human liver with rabbit polyclonal antibody at 1:200 dilution, formalin-fixed paraffin embedded sections.
