IL-10R alpha Antibody (1B1.3a) [Alexa Fluor® 700]

| IL-10R alpha Antibody (1B1.3a) [A | Alexa Fluor® 700]  |
|-----------------------------------|--|
| Product Information               |  |
| Unit Size                         | 100 ul   |
| Concentration                     | Please see the vial label for concentration. If unlisted please contact technical services.  |
| Storage                           | Store at 4C in the dark.   |
| Clonality                         | Monoclonal   |
| Clone                             | 1B1.3a   |
| Preservative                      | 0.05% Sodium Azide   |
| Isotype                           | IgG1 Kappa   |
| Conjugate                         | Alexa Fluor 700  |
| Purity                            | Protein A or G purified  |
| Buffer                            | 50mM Sodium Borate   |
| Product Description               |  |
| Host                              | Rat  |
| Gene ID                           | 3587   |
| Gene Symbol                       | IL10RA   |
| Species                           | Mouse, Human (Negative)  |
| Reactivity Notes                  | Does not react with Human.   |
| Specificity/Sensitivity           | This monoclonal antibody recognizes Mouse Interleukin-10 receptor 1 (IL-10R1), a cell surface glycoprotein of approximately 110KDa. Its epitope is localized in the ligand-binding domain in the extracellular region of Mouse IL-10R1. This antibody blocks the binding of IL-10 to its receptor. IL-10R1 is a class II cytokine receptor expressed on thymocytes, T cells, B cells, NK cells, monocytes and macrophages. Binding of IL-10 to its receptor initiates JAK/STAT signaling that leads to B cell proliferation and inhibition of macrophage activation.   |
| Immunogen                         | Purified recombinant extracellular region of Mouse IL-10R alpha (Uniprot: Q61727)  |
| Notes                             | Alexa Fluor (R) products are provided under an intellectual property license from Life Technologies Corporation. The purchase of this product conveys to the buyer the non-transferable right to use the purchased product and components of the product only in research conducted by the buyer (whether the buyer is an academic or for-profit entity). The sale of this product is expressly conditioned on the buyer not using the product or its components, or any materials made using the product or its components, in any activity to generate revenue, which may include, but is not limited to use of the product or its components: (i) in manufacturing; (ii) to provide a service, information, or data in return for payment; (iii) for therapeutic, diagnostic or prophylactic purposes; or (iv) for resale, regardless of whether they are resold for use in research. For information on purchasing a license to this product for purposes other than as described above, contact Life Technologies Corporation, 5791 Van Allen Way, Carlsbad, CA 92008 USA or outlicensing@lifetech.com. This conjugate is made on demand. Actual recovery may vary from the stated volume of this product. The volume will be greater than or equal to the unit size stated on the datasheet. |

| <b>Product Application Details</b> |  |
|------------------------------------|--|
| Applications                       | Flow Cytometry, Immunocytochemistry/Immunofluorescence                 |
| Recommended Dilutions              | Flow Cytometry, Immunocytochemistry/Immunofluorescence                 |
| Application Notes                  | Optimal dilution of this antibody should be experimentally determined. |
