bcl-x Antibody (SPM519) [Alexa Fluor® 700]

Unit Size Concentration Please see the vial label for concentration. If unlisted please contact technical services. Storage Store at 4C in the dark. Clonality Monoclonal Clone SPM519 Preservative 0.05% Sodium Azide Isotype IgG Conjugate Alexa Fluor 700 Purity Protein A or G purified Buffer 50mM Sodium Borate Product Description Host Mouse Gene ID 598 Gene Symbol BCL2L1 Specificity/Sensitivity Recognizes a protein of 27kDa, identified as the Bcl-X protein. This monoclonal antibody shows no cross-reaction with Bcl-2 or Bax protein Bcl-X has two isoforms, Bcl-XL (long), a 241 amino acid protein which suppresses cell death. And Bcl-XS (shorn), a 175 amino acid protein lacking a 63 amino acid domain which functions as a dominant inhibitor of Bcl-Z. Immunogen Recombinant human bcl-x protein fragment (around aa 1-135) (exact sequence is proprietary) (Uniprot: Q07817) Notes Alexa Fluor (R) products are provided under an intellectual property license from Life Technologies Corporation. The purchase of this product conveys to the buyer the non-transferable right to use the purchased product and components of the product only in research conducted by the buyer (whether the buyer is an academic or for-profit entity). The sale of this product is expressly conditioned on the buyer not using the product or its components, or any materials made using the product orily to provide a service, information, or data in return for payment; (ii) for therapeutic, diagnostic or prophylactic purposes; or (iv) for seale, regardless of whether they are resold for use in research. For information on purchasing a license to this product for the datasheet.	Product Information
