HuProtTM PAX5 gen The centra domain, k early deve to contribu celllineage late stage developin	icity of this monoclonal antibody to its intended target was validated by Array, containing more than 19,000, full-length human proteins. The e is a member of the paired box (PAX)family of transcription factors. If feature of this gene family is a novel, highly conservedDNA-binding nown as the paired box. The PAX proteins are important regulators in lopment, and alterations in the expression of their genes are thought te toneoplastic transformation. The PAX5 gene encodes theB- e specific activator protein (BSAP) that is expressed at early, but not s of B-cell differentiation. Its expression has also been detected in g CNS and testis; therefore, PAX5 gene product may not only play an role in B-cell differentiation, but also in neural development and genesis.	
Immunogen Recombin	ant full-length humanPax5/BSAP protein (Uniprot: Q02548)

	Alexa Fluor (R) products are provided under an intellectual property license from Life Technologies Corporation. The purchase of this product conveys to the buyer the non-transferable right to use the purchased product and components of the product only in research conducted by the buyer (whether the buyer is an academic or for-profit entity). The sale of this product is expressly conditioned on the buyer not using the product or its components, or any materials made using the product or its components, in any activity to generate revenue, which may include, but is not limited to use of the product or its components: (i) in manufacturing; (ii) to provide a service, information, or data in return for payment; (iii) for therapeutic, diagnostic or prophylactic purposes; or (iv) for resale, regardless of whether they are resold for use in research. For information on purchasing a license to this product for purposes other than as described above, contact Life Technologies Corporation, 5791 Van Allen Way, Carlsbad, CA 92008 USA or outlicensing@lifetech.com. This conjugate is made on demand. Actual recovery may vary from the stated volume of this product. The volume will be greater than or equal to the unit size stated on the datasheet.
Product Application Details	
Applications	Western Blot, ELISA
Recommended Dilutions	Western Blot, ELISA
Application Notes	Optimal dilution of this antibody should be experimentally determined.
