| Description                 | Novus Biologicals Rabbit ROCK2 Antibody (10E1) - BSA Free (NBP3-15152) is a recombinant monoclonal antibody validated for use in WB, ELISA and ICC/IF. All Novus Biologicals antibodies are covered by our 100% guarantee. |
| Host                        | Rabbit                                                                                                                                                                                                                     |
| Gene ID                     | 9475                                                                                                                                                                                                                       |
| Gene Symbol                 | ROCK2                                                                                                                                                                                                                      |
| Species                     | Human, Mouse, Rat                                                                                                                                                                                                          |
| Immunogen                   | A synthesized peptide derived from human ROCK2. UniProt ID (O75116).                                                                                                                                                       |
| Product Application Details |                                                                                                                                                                                                                            |
| Applications                | Western Blot, ELISA, Immunocytochemistry/ Immunofluorescence                                                                                                                                                               |
| Recommended Dilutions       | Western Blot 1:500-1:5000, ELISA, Immunocytochemistry/ Immunofluorescence                                                                                                                                                  |

## Images

Western Blot: ROCK2 Antibody (10E1) [NBP3-15152] - Positive WB detected in: Hela whole cell lysate, MCF-7 whole cell lysate, L02 whole cell lysate, HepG2 whole cell lysate, Mouse Brain whole cell lysate, Rat Brain whole cell lysate. All lanes: ROCK2 antibody at 1:1000. Secondary: Goat polyclonal to rabbit IgG at 1/50000 dilution. Predicted band size: 161 KDa. Observed band size: 161 KDa.

Immunocytochemistry/Immunofluorescence: ROCK2 Antibody (10E1) [NBP3-15152] - Immunofluorescence staining of Hela Cells with at ROCK2 antibody 1:50, counter-stained with DAPI. The cells were fixed in 4% formaldehyde, permeated by 0.2% TritonX-100, and blocked in 10% normal Goat Serum. The cells were then incubated with the antibody overnight at 4C. Nuclear DNA was labeled in blue with DAPI. The secondary antibody was FITC-conjugated Goat Anti-Rabbit IgG (H+L).
