La Crosse Virus Glycoprotein 1 Antibody (807.31) [Janelia Fluor® 525]

| <b>Product Information</b> |                                                                                             |
|----------------------------|---------------------------------------------------------------------------------------------|
| <b>Unit Size</b>           | 0.1 ml                                                                                      |
| <b>Concentration</b>       | Please see the vial label for concentration. If unlisted please contact technical services. |
| <b>Storage</b>             | Store at 4C in the dark.                                                                    |
| <b>Clonality</b>           | Monoclonal                                                                                  |
| <b>Clone</b>               | 807.31                                                                                      |
| <b>Preservative</b>        | 0.05% Sodium Azide                                                                          |
| <b>Isotype</b>             | IgG Kappa                                                                                   |
| <b>Conjugate</b>           | Janelia Fluor 525                                                                           |
| <b>Purity</b>              | Protein A purified                                                                          |
| <b>Buffer</b>              | 50mM Sodium Borate                                                                          |

| <b>Product Description</b> |                                                                                                                                                       |
|----------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Host</b>                | Rabbit                                                                                                                                                |
| <b>Gene ID</b>             | 956555                                                                                                                                                |
| <b>Gene Symbol</b>         | M                                                                                                                                                     |
| <b>Species</b>             | Virus                                                                                                                                                 |
| <b>Reactivity Notes</b>    | La Crosse Bunyavirus                                                                                                                                  |
| <b>Immunogen</b>           | This antibody was raised by immunising BALB/c mice with La Crosse viruses and the harvested spleens were fused with mouse P3X63Ag8.653 myeloma cells. |
| <b>Notes</b>               | Sold under license from the Howard Hughes Medical Institute, Janelia Research Campus.                                                                 |

| <b>Product Application Details</b> |                                                                          |
|------------------------------------|--------------------------------------------------------------------------|
| <b>Applications</b>                | Western Blot, ELISA, Flow Cytometry, Immunoprecipitation, Neutralization |
| <b>Recommended Dilutions</b>       | Western Blot, Flow Cytometry, ELISA, Immunoprecipitation, Neutralization |
| <b>Application Notes</b>           | Optimal dilution of this antibody should be experimentally determined.   |
