**NBP3-23688-100ug**

ZNF804A Antibody (ZNF804A/8945)

**Product Information**

|                      |                         |
|----------------------|-------------------------|
| <b>Unit Size</b>     | 100 ug                  |
| <b>Concentration</b> | 0.2 mg/ml               |
| <b>Storage</b>       | Store at 4C.            |
| <b>Clonality</b>     | Monoclonal              |
| <b>Clone</b>         | ZNF804A/8945            |
| <b>Preservative</b>  | 0.05% Sodium Azide      |
| <b>Isotype</b>       | IgG2a Kappa             |
| <b>Purity</b>        | Protein A or G purified |
| <b>Buffer</b>        | 10mM PBS with 0.05% BSA |

**Product Description**

|                    |                                                    |
|--------------------|----------------------------------------------------|
| <b>Description</b> | Store at 2 to 8C. Non-hazardous. No MSDS required. |
| <b>Host</b>        | Mouse                                              |
| <b>Gene ID</b>     | 91752                                              |
| <b>Gene Symbol</b> | ZNF804A                                            |
| <b>Species</b>     | Human                                              |
| <b>Immunogen</b>   | Recombinant full-length human ZNF804A protein      |

**Product Application Details**

|                              |                                                                                                                                                                                                                                                                                                     |
|------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Applications</b>          | Immunohistochemistry-Paraffin                                                                                                                                                                                                                                                                       |
| <b>Recommended Dilutions</b> | Immunohistochemistry-Paraffin 1-2ug/ml                                                                                                                                                                                                                                                              |
| <b>Application Notes</b>     | Immunohistochemistry-Paraffin: 1-2ug/ml for 30 minutes at RT. Staining of formalin-fixed tissues requires heating tissue sections in 10mM Tris with 1mM EDTA, pH 9.0, for 45 min at 95C followed by cooling at RT for 20 minutes. Optimal dilution for a specific application should be determined. |

**Images**

Formalin-fixed, paraffin-embedded human skeletal muscle stained with ZNF804A antibody (ZNF804A/8945). Inset: PBS instead of primary antibody; secondary only negative control.
