ULK2 Antibody [Alexa Fluor® 594]

Product Information Unit Size 0.1 ml Concentration Please see the vial label for concentration. If unlisted please contact technical services. Storage Store at 4C in the dark. Clonality Polycional Preservative 0.05% Sodium Azide Conjugate Alexa Fluor 594 Purity Peptide affinity purified Buffer 50mM Sodium Borate Product Description Host Host Rabbit Gene ID 9706 Gene Symbol ULK2 Species Human Specificity/Sensitivity At least two isoforms of ULK2 are known to exist; this antibody will detect both isoforms. ULK2 antibody is predicted to not cross-react with ULK1. Immunogen ULK2 antibody was raised against a 17 amino acid peptide near the center of human ULK2 . The immunogen is located within amino acids 480 - 530 of ULK2. Notes Alexa Fluor (R) products are provided under an intellectual property license from Life Technologies Corporation. The purchase of this product and components. or any activity of expresses or (Winth may include, but is not limited to use of the product and components or for profit research endores or the buyer in the non-transferable right to use the purchase; or (Winth may include, but is not limited to use of the product or is components.
