This conjugate is made on demand. Actual recovery may vary from the stated volume of this product	Buffer	50mM Sodium Borate	
Gene Symbol EPCAM Species Human This antibody was generated using a synthetic peptide of P16422, with the immunogen sequence remaining proprietary. Notes Alexa Fluor (R) products are provided under an intellectual property licer Life Technologies Corporation. The purchase of this product conveys to buyer the non-transferable right to use the purchased product and comport the product only in research conducted by the buyer (whether the buye academic or for-profit entity). The sale of this product is expressly conditionable the product or its components, or any materials made the product or its components, in any activity to generate revenue, which include, but is not limited to use of the product or its components: (i) in manufacturing; (ii) to provide a service, information, or data in return for payment; (iii) for therapeutic, diagnostic or prophylactic purposes; or (iv) resale, regardless of whether they are resold for use in research. For info on purchasing a license to this product for purposes other than as descriabove, contact Life Technologies Corporation, 5791 Van Allen Way, Car CA 92008 USA or outlicensing@lifetech.com. This conjugate is made on demand. Actual recovery may vary from the stated volume of this product	Product Description		
Gene Symbol EPCAM Species Human This antibody was generated using a synthetic peptide of P16422, with the immunogen sequence remaining proprietary. Notes Alexa Fluor (R) products are provided under an intellectual property licer Life Technologies Corporation. The purchase of this product conveys to buyer the non-transferable right to use the purchased product and comprofite product only in research conducted by the buyer (whether the buye academic or for-profit entity). The sale of this product is expressly condition the buyer not using the product or its components, or any materials made the product or its components, in any activity to generate revenue, which include, but is not limited to use of the product or its components: (i) in manufacturing; (ii) to provide a service, information, or data in return for payment; (iii) for therapeutic, diagnostic or prophylactic purposes; or (iv) resale, regardless of whether they are resold for use in research. For information on purchasing a license to this product for purposes other than as describabove, contact Life Technologies Corporation, 5791 Van Allen Way, Car CA 92008 USA or outlicensing@lifetech.com. This conjugate is made on demand. Actual recovery may vary from the stated volume of this product	Host	Mouse	
Immunogen This antibody was generated using a synthetic peptide of P16422, with the immunogen sequence remaining proprietary. Alexa Fluor (R) products are provided under an intellectual property licer Life Technologies Corporation. The purchase of this product conveys to buyer the non-transferable right to use the purchased product and composit the product only in research conducted by the buyer (whether the buyer academic or for-profit entity). The sale of this product is expressly conditional the buyer not using the product or its components, or any materials made the product or its components, in any activity to generate revenue, which include, but is not limited to use of the product or its components: (i) in manufacturing; (ii) to provide a service, information, or data in return for payment; (iii) for therapeutic, diagnostic or prophylactic purposes; or (iv) resale, regardless of whether they are resold for use in research. For info on purchasing a license to this product for purposes other than as descriabove, contact Life Technologies Corporation, 5791 Van Allen Way, Car CA 92008 USA or outlicensing@lifetech.com. This conjugate is made on demand. Actual recovery may vary from the stated volume of this product	Gene ID	4072	
This antibody was generated using a synthetic peptide of P16422, with the immunogen sequence remaining proprietary. Notes Alexa Fluor (R) products are provided under an intellectual property licer Life Technologies Corporation. The purchase of this product conveys to buyer the non-transferable right to use the purchased product and comport of the product only in research conducted by the buyer (whether the buyer academic or for-profit entity). The sale of this product is expressly conditional the buyer not using the product or its components, or any materials made the product or its components, in any activity to generate revenue, which include, but is not limited to use of the product or its components: (i) in manufacturing; (ii) to provide a service, information, or data in return for payment; (iii) for therapeutic, diagnostic or prophylactic purposes; or (iv) resale, regardless of whether they are resold for use in research. For information on purchasing a license to this product for purposes other than as described above, contact Life Technologies Corporation, 5791 Van Allen Way, Car CA 92008 USA or outlicensing@lifetech.com. This conjugate is made on demand. Actual recovery may vary from the stated volume of this product	Gene Symbol	EPCAM	
Notes Alexa Fluor (R) products are provided under an intellectual property licer Life Technologies Corporation. The purchase of this product conveys to buyer the non-transferable right to use the purchased product and comport of the product only in research conducted by the buyer (whether the buyer academic or for-profit entity). The sale of this product is expressly condition the buyer not using the product or its components, or any materials made the product or its components, in any activity to generate revenue, which include, but is not limited to use of the product or its components: (i) in manufacturing; (ii) to provide a service, information, or data in return for payment; (iii) for therapeutic, diagnostic or prophylactic purposes; or (iv) resale, regardless of whether they are resold for use in research. For information purchasing a license to this product for purposes other than as descriptorially above, contact Life Technologies Corporation, 5791 Van Allen Way, Car CA 92008 USA or outlicensing@lifetech.com. This conjugate is made on demand. Actual recovery may vary from the stated volume of this product	Species	Human	
Alexa Fluor (R) products are provided under an intellectual property licer Life Technologies Corporation. The purchase of this product conveys to buyer the non-transferable right to use the purchased product and comport of the product only in research conducted by the buyer (whether the buyer academic or for-profit entity). The sale of this product is expressly conditionally the buyer not using the product or its components, or any materials made the product or its components, in any activity to generate revenue, which include, but is not limited to use of the product or its components: (i) in manufacturing; (ii) to provide a service, information, or data in return for payment; (iii) for therapeutic, diagnostic or prophylactic purposes; or (iv) resale, regardless of whether they are resold for use in research. For info on purchasing a license to this product for purposes other than as descriabove, contact Life Technologies Corporation, 5791 Van Allen Way, Car CA 92008 USA or outlicensing@lifetech.com. This conjugate is made on demand. Actual recovery may vary from the stated volume of this product		This antibody was generated using a synthetic peptide of P16422, with the exact immunogen sequence remaining proprietary.	

Product Application Details	
Applications	Western Blot, Immunohistochemistry-Paraffin
Recommended Dilutions	Western Blot, Immunohistochemistry-Paraffin
Application Notes	Optimal dilution of this antibody should be experimentally determined.
