| Conjugate            | Biotin                                                                                                                                                                                                                                                                                                                                                                          |
| Product Description  |                                                                                                                                                                                                                                                                                                                                                                                 |
| Description          | The ELISA kit contains a capture antibody, detection antibody, and recombinant protein standard validated to function together in an optimized ELISA format; kit components are not supplied in matched quantities and may be purchased separately. This product is for research use only.                                                                                      |
| Gene ID              | 5155                                                                                                                                                                                                                                                                                                                                                                            |
| Gene Symbol          | PDGFB                                                                                                                                                                                                                                                                                                                                                                           |
| Species              | Equine                                                                                                                                                                                                                                                                                                                                                                          |
| Reactivity Notes     | Species with 100% Homology: Equus asinus (ass), Equus przewalskii (Przewalski's horse)                                                                                                                                                                                                                                                                                          |
| Assay Type           | Sandwich ELISA                                                                                                                                                                                                                                                                                                                                                                  |
| Suitable Sample Type | Cell culture supernatants from horses (Equus caballus). Can also be used in additional biological sample types reported in the literature reported in the literature, including serum, plasma, platelet-rich plasma, synovial fluid, wound exudates, and tissue lysates, with minor protocol modifications recommended to optimize assay performance across different matrices. |
| Sample Volume        | 100 ul                                                                                                                                                                                                                                                                                                                                                                          |
