| Storage                     | Keep as concentrated solution. Aliquot and store at -20C or below. Avoid multiple freeze-thaw cycles.                                |
| Clonality                   | Polyclonal                                                                                                                           |
| Preservative                | 0.1% Sodium Azide                                                                                                                    |
| Isotype                     | IgG                                                                                                                                  |
| Purity                      | Immunogen affinity purified                                                                                                          |
| Buffer                      | PBS                                                                                                                                  |
| Product Description         |                                                                                                                                      |
| Description                 | Product can be stored undiluted at 4C for up to 1 month.                                                                             |
| Host                        | Rabbit                                                                                                                               |
| Gene ID                     | 10936                                                                                                                                |
| Gene Symbol                 | GPR75                                                                                                                                |
| Species                     | Human, Porcine, Bat, Bovine, Equine, Primate, Monkey, Rabbit                                                                         |
| Reactivity Notes            | Predicted cross-reactivity based on sequence identity: Gorilla (100%), Opossum (89%), Chicken (89%), Xenopus (89%), Zebrafish (84%). |
| Specificity/Sensitivity     | Human GPR75. BLAST analysis of the peptide immunogen showed no homology with other human proteins.                                   |
| Immunogen                   | Synthetic 19 amino acid peptide from C-terminus of human GPR75.                                                                      |
| Product Application Details |                                                                                                                                      |
| Applications                | Immunohistochemistry, Immunohistochemistry-Paraffin                                                                                  |
| Recommended Dilutions       | Immunohistochemistry, Immunohistochemistry-Paraffin 10 - 25 ug/ml                                                                    |

## Images

Immunohistochemistry-Paraffin: GPR75 Antibody [NLS1593] - Anti-GPR75 antibody IHC of human testis. Immunohistochemistry of formalin-fixed, paraffin-embedded tissue after heat-induced antigen retrieval. Antibody dilution 10-25 ug/ml.

Immunohistochemistry-Paraffin: GPR75 Antibody [NLS1593] - Analysis of anti-GPR75 antibody with human brain, cortex, neurons at dilution 10-25 ug/ml.
