Product Datasheet

GPR160 Antibody - BSA Free NLS542

Unit Size: 0.05 ml

Keep as concentrated solution. Aliquot and store at -20C or below. Avoid multiple freeze-thaw cycles.

NLS542

GPR160 Antibody - BSA Free

Unit Size 0.05 ml Concentration 1.0 mg/ml Keep as concentrated solution. Aliquot and store at -20C or below. Avoid multiple freeze-thaw cycles. Clonality Polyclonal Preservative 0.1% Sodium Azide Isotype IgG Purity Immunogen affinity purified Buffer PBS Product Description Description Product can be stored undiluted at 4C for up to 1 month. Host Rabbit Gene ID 26996 Gene Symbol GPR160 Species Human Reactivity Notes Predicted cross-reactivity based on sequence identity: Gorilla (100%), Gibbon (89%), Monkey (89%), Marmoset (89%), Canine (84%), Bovine (84%).

Product Application Details	
Applications	Immunohistochemistry, Immunohistochemistry-Paraffin
Recommended Dilutions	Immunohistochemistry, Immunohistochemistry-Paraffin 10-20 ug/ml

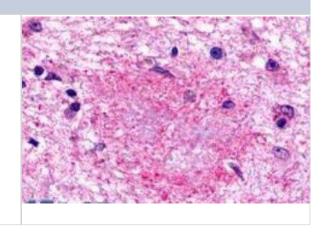

Synthetic 19 amino acid peptide from 2nd extracellular domain of human

Images

Immunogen

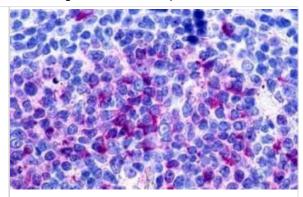

Immunohistochemistry-Paraffin: GPR160 Antibody [NLS542] - Brain, Alzheimer's disease senile plaque

GPR160.

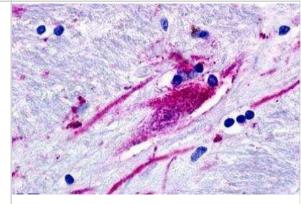

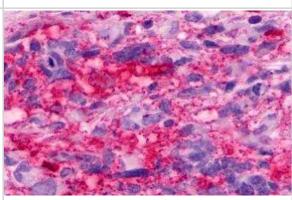

Immunohistochemistry-Paraffin: GPR160 Antibody [NLS542] - Anti-GPR160 antibody IHC of human tonsil. Immunohistochemistry of formalin-fixed, paraffin-embedded tissue after heat-induced antigen retrieval.

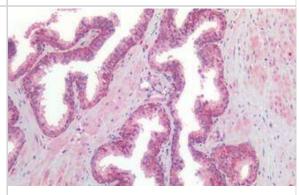

Immunohistochemistry-Paraffin: GPR160 Antibody [NLS542] - Brain, caudate neuron

Immunohistochemistry-Paraffin: GPR160 Antibody [NLS542] - Brain, Glioblastoma

Immunohistochemistry-Paraffin: GPR160 Antibody - BSA Free [NLS542] - Immunohistochemistry of formalin-fixed, paraffin-embedded Human Prostate, Positive Staining in Glandular Acini Cells tissue

Procedures

Immunohistochemistry protocol for GPR160 Antibody (NLS542)

Immunohistochemistry Protocol for GPR160 Antibody (NLS542): Immunohistochemistry

- 1. Prepare tissue with formalin fixation and by embedding it in paraffin wax.
- 2. Make 4-um sections and place on pre-cleaned and charged microscope slides.
- 3. Heat in a tissue-drying oven for 45 minutes at 60 degrees Celcius.
- 4. Deparaffinize the tissues by wash drying the slides in 3 changes of xylene approximately 5 minutes each @ RT.
- 5. Rehydrate the tissues by washing the slides in 3 changes of 100% alcohol approximately 3 minutes each @ RT.
- 6. Wash the slides in 2 changes of 95% alcohol approximately 3 minutes each @ RT.
- 7. Wash the slides in 1 change of 80% alcohol approximately 3 minutes @ RT.
- 8. Rinse the slides in gentle running distilled water approximately 5 minutes @ RT.
- 9. Perform antigen retrieval by steaming the slides in 0.01M sodium citrate buffer (pH 6.0) @ 99-100 degrees Celcius for 20 minutes.
- 10. Remove the slides from the heat and let stand in buffer @ RT for 20 minutes.
- 11. Rinse the slides in 1X TBS-T for 1 minute @ RT.
- **Do not allow the tissues to dry at any time during the staining procedure**
- 12. Begin the immunostaining by applying a universal protein block approximately 20 minutes @ RT.
- 13. Drain protein block from the slides and apply the diluted primary antibody approximately 45 minutes @ RT.
- 14. Rinse the slide in 1X TBS-T approximately 1 minute @ RT.
- 15. Apply a biotinylated anti-rabbit IgG (H+L) secondary approximately 30 minutes @ RT.
- 16. Rinse the slide in 1X TBS-T approximately 1 minute at RT.
- 17. Apply an alkaline phosphatase steptavidin approximately 30 minutes at RT.
- 18. Rinse the slide in 1X TBS-T approximately 1 minute at RT.
- 19. Apply an alkaline phosphatase chromagen substrate approximately 30 minutes at RT.
- 20. Rinse the slide in distilled water approximately 1 minute @ RT.
- **This method should only be used if the chromagen substrate is alcohol insoluble (ie: Vector Red, DAB)**
- 21. Dehydrate the tissue by washing the slides in 2 changes of 80% alcohol approximately 1 minute each @ RT.
- 22. Wash the slides in 2 changes of 95% alcohol approximately 1 minute each @ RT.
- 23. Wash the slides in 3 changes of 100% alcohol approximately 1 minute each @ RT.
- 24. Wash the slides in 3 changes of xyleneapproximately 1 minute each @ RT.
- 25. Apply cover slip.
